Terms and Conditions
Terms are cash or check and settlement must be made before cattle leave the sale facility. All cattle sell under the standard terms and conditions of the American Gelbvieh Association.

Supplement Sheet
A supplement sheet will be available sale day with updated information. The supplement sheet and announcements from the block take precedence over the sale book.

Liability
All persons attending the sale do so at their own risk. Sale hosts and/or the sale management assumes no liability for accidents, theft or damages occurring at the sale facility.

Sale Location
Farmer’s & Ranchers Livestock, Salina, Kansas
1500 Old US 40 Salina, KS 67401
Exit I-135 at State Highway 140 (Exit 93). Go east 1 mile on HWY 140.

Schedule of Events
Friday, November 29
12:00 p.m. Cattle available for viewing
7:00 p.m. KGA Social
8:00 p.m. KGA Annual Meeting

Saturday, November 30
8:00 a.m. Cattle Available for Viewing
1:00 p.m. Pick of the Herd Sale

Health
All cattle sell with a valid health certificate that will allow shipment anywhere in the continental United States.

Registration Papers
Registrations on the animals selling are in order and will be transferred to the new owner. Registrations will be processed by the AGA and should be to the new owner in 45-60 days.

Mitchell Marketing Services
20180 NE Roy Golden Rd - Blountstown, FL 32424
We are excited to offer you the pick of our 2019 fall born heifer calves, born August - December. This includes 25-30 heifers, both Balancer and Purebred females from Kelly and Brent or Roger. Sires include OVER Enshrined 028E (Red BA 50%) who was a division winner in Denver. He is listed in the Pure Beef Genetics semen catalog. OVER Drawing 910D ET (PC 75% from the 120Y Carley cow) his flush-mate was a Denver division winner. 910D sired last year’s high selling open heifer in this sale and she went on to be Res. Div. at Jr. Nationals. His high % daughters are stunners including a dark red maternal sister to a division winning bull from Denver. Unfrogiven, BABR 7023E (BA 38% Futurity Runner-up) His first calf crop has been elite, including an April heifer calf we just had slapped Reserve Champion Balancer Female in Kansas City at the Royal. Multiple 3/4 sibs could be your pick. Pick must be made by April 1, 2020. ET’s are not offered as part of the pick.

### Pick of Fall 2019 Natural Born Heifer Calves

Sasha 44E2 is a big-middled, easy-doing first calf heifer who traces to our 44M donor. These Sasha females are widely known for their fertility and mothering ability…and E2 is no exception. She is a big-topped female with a super udder who is doing a fantastic job raising her EGL Lifeline-sired heifer calf. Wonderful opportunity here!

**Lot 2A:** BDCL 44G3  DB DP Balancer Heifer Calf born 10-5-19.  BW: 70  Sired by EGL Lifeline B101 (AMGV1298079)

Sasha 44E5 is a good example of what these maternal Sasha cows will do. E5 rated 113 at weaning and her cow family consistently raises powerful calves. We appreciate her strong teat/udder combination today and time will prove her true worth as a valuable breeding piece. Evaluate these young Sasha cows. The work is done for you.

**Lot 3A:** BDCL 44G  Black Polled Heifer Calf born 8-25-19.  BW: 66  Sired by TTTT Mighty Hott (AMGV1317187)
This bred heifer is an ET daughter of our "Wilma" cow DSFG250S8. PMG82F is a full sib to the 2013 AGJA National Champion Balancer Bull as well as the 2014 AGJA National Champion Purebred Gelbvieh bull that saw service at Hojer Gelbvieh siring an overall Grand Champion Female at the Iowa State Fair. These animals are all sired by CRAN W24, a purebred sire with the famed "Annie" 838H and Buddy Boy in the pedigree. These breeding pieces have been prideful producers for us and we expect no less from 82F being safe in calf to Ivers Cinch C7 ET one of the resident herd sires for Bar Arrow Gelbvieh and an AGJA National Champion in his own right. She was AI bred on 6/19 and is safe for a 3/27/20 calf.

Homo Polled Balancer female from a very powerful dam with a history of weaning big calves. Sire BROK Final Dimension 601D was a bull we used AI after he was a division winner in Denver. This is a female with the power and performance it takes to raise bulls commercial cattlemen demand. She was AI’d to Fiddle, a top calving ease prospect purchased by Raile Gelbvieh. AI’d 4/13/2019 to OVER Fiddle 6344F AMGV 1426141 and then exposed to Plainsman 7102E AMGV 1388323. Ultrasound due to Fiddle Jan. 20, 2020.

September Farms Franklin, Nebraska

F47 is a daughter of the famed donor BTI Ms Perri B 2010R. We were very fortunate to add thissuper donor to our program. She was a donor in the Jumping Cow program prior to our ownership. She very well could be the top production donor female to ever come out of the Jumping Cow herd. We are pleased to offer SEPT Oakley, a direct daughter of Perri B 2010R and sired by JRI Oklahoma. Oakley has everything it takes to make a power donor. We are selling 100% of this female with the right to retain 1 flush in her lifetime at the buyer’s convenience and seller’s expense.

AI’d on 5-12-19 to SEPT Copperfield. Safe to AI and due 2-20-20
We purchased embryos from TJB Gelbvieh for this mating and we are so excited to see the future of these 3 full sisters selling as lots 7-9. The Vanessa cow family with the maternal grand dam being Velvet Moon 226M, maybe the top producing donor for TJB through the years, is one of the great cows and families to exist at TJB Gelbvieh. These 75% Balancer sisters are mated to be premier females with predictable production.

AI’d on 5-12-19 to SEPT Copperfield. Safe and due 3-14-20.

Game Changer has been a huge asset to our program. The Game Changer bulls in our spring production sale have been in huge demand. The daughters are equally as impressive and we look forward to the future of these females. Jordyan 17G8 is a very impressive 50% Balancer with a great style and balance with excellent volume. She also ranks in the top 15% for marbling and FPI, top 20% for WW and 35% YW. Sells open.

Selling a young female from one of the top cow families in our operation, the Anissa cow family. 337M and 921U through the years have continued to produce right at the top of our program. The mating to Ditka C85 has produced an amazing individual in lot 23. The depth and power in this heifer are very impressive. When we sell cattle, we try to make sure we sell females that we feel will work in the industry. She is homozygous polled with a super pedigree and powerful numbers. Sells open.

**SELLER:** Circle S Ranch  
Canton, Kansas

If your looking for purple and a heifer that will make her way quick into the donor pen look this one up! She’s the best black Powerbuilt heifer we have raised to date! She has the look everyone wants yet still maintaining the power and natural rib shape and depth of body it takes! A few years ago we sold a black heifer in this sale that went on to get Reserve Female at the National Western in Denver! This heifer reminds me a lot of her and could do the same thing! Don’t miss your chance to buy this great black Powerbuilt daughter!! Entered in the NWSS. Sells open.

Retaining 1 freezable flush at buyers convenience and sellers expense.

**SELLER:** Cooper Gelbvieh  
Burdett, Kansas

If you like them stout, big ribbed, and moderate made then check this Watchman daughter out. This heifer impresses us in many ways, and it was not in our plans to let her go for the longest time. However, we displayed her and her Sandhills momma at the Kansas Tour this summer and she was liked by many. Her popularity led us into deciding to put her into this sale. She has a great disposition, and is just so easy going. Combine her show potential with her EPD strength which lands her in the top 4% of Marbling, top 15% of FPI, and top 25% of yearling growth, and we think she has the making to be a tremendous brood cow! Sells open.

**SELLER:** Cooper Gelbvieh  
Burdett, Kansas

This will be one of the first Rainfall heifers to hit the auction block, and we were extremely impressed with the quality that this up and coming sire put into his calf crop this year. Miss Dixie Mae is a pretty unique individual as she has the show girl look combined with top notch EPD strength. As a show prospect she is so attractive through her head and neck, has plenty of center body depth, and has a striking look from the side profile. Then when you look at her on paper she ranks in the top 1% of Marbling, top 2% of FPI, top 5% of Milk, top 10% of YW, and top 15% of CED. Wow! Sells open.

Goodness Gracious is a striking female who has that extra “Look” and a flawless design. Her sire Danger Zone 91D ET had a flush mate top the Balancer offering here in 2017 and go on to be a class winner at Jr. Nationals. 91D’s donor Dam 1100Y is out of a National Champion Female. The bottom side of 901G’s pedigree features a Tuned In 55T mamma. He is a sire who needs no introduction to this sale as he has sired several of our top consignments. Bid on the style, buy for the pedigree. Sells open.

SELLER:  Cooper Gelbvieh  Burdett, Kansas
Here is a late April heifer that we felt had too much show potential to leave out of the sale. When she strikes a pose she is so refined in her head and neck, and comes out level and square through her hip. We know we messed up and should have weaned her earlier, as she is a little green at the moment. However, after we weaned the others she just kept catching our eye. So, in mid-October we decided it was worth the shot to wean her off of her first calf heifer momma and try to get her ready for the sale. She has been a dream to work with as she was halter broke in the first week, and has the temperament to work for a young showman. Gracie Lou has tons of potential, and we are excited to see how she develops! Sells open.
You won't have too look hard to find this exceptional red open heifer. She is out of a dam that once stood at side of the 2010 AGJA Grand Champion female. Her dam TPMG Xana Lady 30X was a division champion in her own right and has produced many “keepers” both ET and natural. 17G is sired by our herd sire selection from the Murray Farms at the Oklahoma Sooner Select Bull Test. GAMBC81 was selected for his calving ease, and high indexing IMF. He has pleased us with cattlemen's kind cattle that have performance and eye appeal. This heifer is no exception. She is younger, will be in a smaller division and will be a leaner presentation for this sale but ready to take off and only improve in your operation.

Her grand dam was the 2010 AGJA National Champion female. Tricia showed her dam successfully as well. This clean extended heifer will gather second looks and has the breeding to excel the performance records when in production. She is in a younger division and will reward your efforts with great success!

PMG Uma 802U ET       Maternal Grand dam of lots 34 & 35

PMG 12Z ET       Dam of lot 35

This program has been implemented to encourage the Jr. Members in promoting Gelbvieh at various shows as well as to offer the Jr. Members a chance to receive a payback for their efforts. This year the total payout is estimated at $1,025 to be paid in the manner listed below.

To be eligible:

a. Lots 1-35 in the KGA “Pick of the Herd” Female sale are futurity eligible for the 2020 futurity jackpot. This ruling on bred heifers selling will allow Jr. Members to show them as a cow/calf pair with a bull or heifer calf at side. Regarding ¾ blood females, if shown as a Balancer female in the spring show class, this female will show as Balancer in the Futurity Class. Status needs to be determined at time of entry to the Kansas/Nebraska Joint Spring Show. In order to be eligible to show all fees must be paid in full prior to the spring show.

b. The female must be titled in the Jr. Member’s name only and the Jr. Member must be a member of either the Kansas Jr. Gelbvieh Association or the Jr. GAIN Association. Memberships can be purchased at the time the spring show entries are due. In following the AGJA rules, a Jr. Member needs to be 8 years old to show. If Jr. Member is unable to show, futurity animals must be shown by an immediate family member in the futurity classes to be eligible for the futurity money, and this immediate family member must be a Jr. Member.
This program is implemented to encourage junior and adult members in promoting Gelbvieh cattle at the Kansas State Fair in 2020. Both junior and adult members will be given a chance to receive a payback for their efforts. This year the total payout for the Kansas State Fair is estimated at $1025 to be paid in the manner listed below.

To be eligible:

a. Lots 1-35 selling in the 2019 “Pick of the Herd” Female sale are futurity eligible for the 2020 futurity jackpot. This ruling on the bred heifers selling will allow Jr. and Adult Members to show them as cow/calf pair with a bull or a heifer calf at side. Regarding ¾ blood, females, if shown as a Balancer female in the spring show class, this female will show as Balancer in the Futurity Class. Status needs to be determined at time of entry to the Kansas State Fair. In order to be eligible to show all fees must be paid in full prior to the show.

b. The female must be titled in the Jr. or Adult’s name at the time of the sale. This cannot be changed later to be eligible. The member must be a member of the Kansas Jr. Gelbvieh Association, Jr. Gain Association, or the Kansas Gelbvieh Association. Memberships can be purchased at the time of the sale or at the time spring show entries or Kansas State Fair entries are due. In following AGJA rules, a Jr. Member needs to be 8 years old to show. If Jr. Member is unable to show, futurity animals must be shown by an immediate family member in the futurity classes at the Kansas State Fair to be eligible for the futurity money.

c. Futurity program year runs from the 2019 “Pick of the Herd” Female Sale until the 2020 Kansas State Fair Gelbvieh Show. Females sold in this sale will only have one program year of eligibility. A new group of females will be sold at the next designated futurity sale for the next program year.

d. All rules will be strictly enforced. Any questions or discrepancies that arise will be settled by the KGA Board.

Payout Breakdown:

a. Showing at the 2020 Kansas State Fair (Futurity Show): Payout estimated at $1,025 in cash awarded. (Award money will be split 50% Champion Gelbvieh female and 50% Champion Balancer female) Females will show according to what is designated on the entry form. Regarding ¾ blood females, if the female is shown in the Balancer futurity class, she will only be eligible for the money designated for the Balancers. Two Futurity Classes (Gelbvieh and Balancers) will be shown and one Champion will be paid for each class.

iii. All Futurity heifers are required to show in the Jr. Show.
